

## PETITION

### **To the Honourable the Speaker and Members of the Legislative Assembly of New South Wales.**

The Petition of residents of and visitors to Byron Shire

Bring to the attention of the House opposition to the current West Byron applications that will result in irreversible major negative impacts on the ecological, social and economic future of Byron Bay, Byron Shire and the Northern Rivers region.

The undersigned petitioners therefore ask the Legislative Assembly to respond to this inappropriate development application and take action to ensure that any development of West Byron is of a scale and form that will not detract from the regional importance of Byron Bay as a tourism attraction and will not adversely affect the efficiency and operation of the principal entry, Ewingsdale Road and will enhance the connectivity of the Byron Koala population and will have a benign effect on State significant wetlands and Cape Byron Marine Park.
